

THE BENEFITS OF EMPLOYING APM

Full Service Management: With the ability to offer a wide range of services, Associated Property Management is able to provide associations the flexibility in terms of services and value that can occur with the ever changing demands of the Board of Directors from year to year.

Leader in the Association Management Field: Associated Property Management has long been considered a leader in the field of association management. Over the years we have continued to innovate and evolve our operations and systems in order to provide our clients with the most cost effective association management possible.

Innovation: We have always been a leader in terms of hardware and software to power our association accounting, administrative and management operations. We spend thousands of dollars every year not only to maintain, but also to upgrade our systems in order to make our office, our staff and managers as productive as possible. This innovation translates into better and more cost effective service.

Dedicated Employees: Associated Property Management provides it's full-time employees with the best employee benefits possible through Paychex. These benefits help to attract and maintain superior employees who have a vested interest in our company and its clients. This helps to keep employees who are well trained and pleasant to deal with on a daily basis.

Long Term Relationships: We are proud to say that over 40% of our current clients we have had as clients for more than 20 years! We believe that this proves that our service and dedication to quality is a proven fact.

Stability of Ownership: Associated Property Management has been owned and operated solely by John R. Math since 1988. Mr. Math and his staff are seasoned real estate professionals who have managed associations in Palm Beach County for more than 35 years. They have the knowledge, experience and dependability to help your association to prosper and increase in value.
